

## We are hiring!

We are looking for highly motivated and talented postdoc and Ph.D. students willing to join the Graphics & Imaging Lab (<http://graphics.unizar.es/>) at the University of Zaragoza, Spain, to work in the fields of computer graphics and computational imaging. Some of the exciting research topics we are interested in include transient and non-line-of-sight imaging, light transport simulation, appearance modeling, perception, and virtual reality. The starting date is negotiable but it would ideally be September or October 2022, for a duration of one year, which could be extended afterwards.

### Your ideal profile:

- Degree in computer science, electronics engineering, physics, mathematics or similar, preferably (but not required) at Master level or above.
- Research and publication experience and motivation for research-oriented activities.
- Ability to fluently communicate in English.
- Ability to work collaboratively.
- Mobility (possibility to travel within the EU and worldwide).
- Some experience in the topics of interest.

### We offer:

- Remuneration according to the official rates of the University of Zaragoza, which depend on your latest degree (Bachelor, Master, Junior PhD or Senior PhD).
- Work flexibility: possibility of partial teleworking and a flexible schedule.
- Outstanding international networking, including trips to conferences and workshops.
- Creative and friendly work environment.

If you are interested, please send your CV and a motivation letter to [graphics@unizar.es](mailto:graphics@unizar.es). Should you need further information, do not hesitate to contact us through the same e-mail address.
